FACT SHEET | JUNE 2026

Who Is Running Attack Ads Against Melat And Why

Diana DeGette, Melat's opponent, has been in Congress since 1997. In that time, she has taken over \$5.5 million from corporate PACs.

Now, outside Super PACs are dumping hundreds of thousands of dollars into the race on ads attacking Melat because she is a threat to the establishment, and the corporate donors they are beholden to.

- One Super PAC, Mile High Accountability, has already spent \$350,000 and was created just two months ago with no public donors. We won't know who is behind these outside PACs until after the Primary, which is convenient, and the definition of dark money.
- Another corporate PAC run by real estate lobby's National Association of Realtors is pouring thousands into the race to stop Melat because she will actually fight for affordable housing in Denver — while DeGette is being bankrolled by the very lobby raising our rents.

Degette's Biggest Corporate Donors by Industry

Rep. Diana DeGette has held this seat for 30 years. Nearly two-thirds of her campaign money comes from corporate PACs, with Big Pharma and corporate healthcare lobbies making up the bulk of that, while she sits on the very subcommittee that is supposed to regulate the industry. She *pretends* to support Medicare for All while being bankrolled by the very lobbies trying to stop it from passing. Even the National Nurses United said about her: "To win Medicare for All and finally end corporate control over our health care, candidates and elected officials must refuse to be bought/paid for by the pharmaceutical, hospital, and insurance industries." She also takes tens of thousands of dollars from real estate, big tech, and ICE contractors.

Who is Melat Kiros?

Melat Kiros is an immigrant raised in Denver, a lawyer who was fired for defending students' right to protest genocide, and the first person to force Diana DeGette into a real primary fight in 30 years. Melat's family immigrated to Denver from Tigray, Ethiopia in 1998. She grew up here with her parents, little sister, and extended family of aunties, uncles, and cousins. Melat earned her law degree from Notre Dame and in 2023, she was fired from her corporate law firm after she publicly defended students' right to protest the genocide in Gaza. After she was fired, Melat moved home to Denver and has been working in a local coffee shop while running for Congress.
